by the Arts Council in association		
with the National Association of		
Arts Centres	194	
<i>English Art 1714-1800</i>		
by Joseph Burke	193	
<i>Greene and Greene—Architects in the</i>		
<i>Residential Style</i>		
by William R. Current and Karen		
Current	120	

# TAKE OUT A SUBSCRIPTION TODAY THE ARCHITECTURAL REVIEW NEEDS TO BE READ REGULARLY

The October issue of the AR will be exclusively devoted to Chicago.

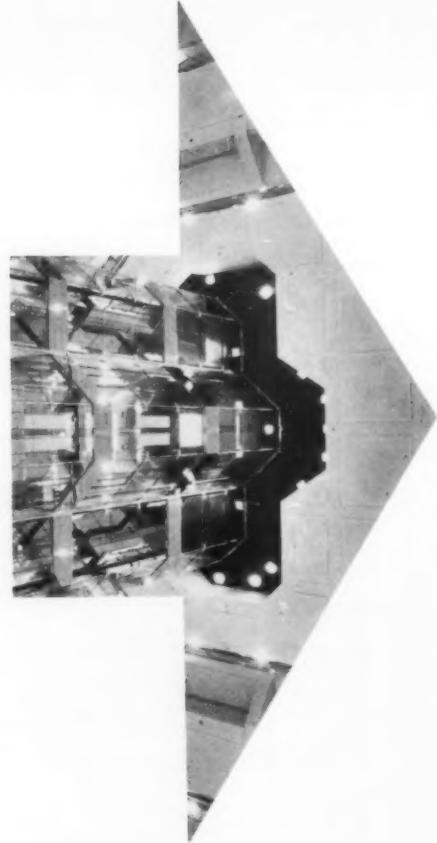

*In many ways the environmental urban crisis of Chicago is the crisis of the modern city. And the hiatus of the Modern Movement is epitomised by the architecture of the city of Chicago, with its rich vein of vernacular buildings and its heritage of pioneering practices . . . Altogether a very interesting city.*

*Our magazines sell out locally quickly. Here are the postage-paid prices if you take out a subscription for regular delivery by surface mail (please enquire for air mail rates).*

THE ARCHITECTURAL REVIEW, one year's supply at the annual subscription rate UK and Eire £17; overseas £26 (US and Canada only \$49). There is no student rate for The Architectural Review on its own.

THE ARCHITECTS' JOURNAL, weekly at the annual subscription rate UK and Eire £18; overseas £44 (US and Canada \$78); student rate £13.50 to members of UK and Eire schools of architecture. Please see on right UK & Eire offer that saves £7.

COMBINED ARCHITECTURAL REVIEW AND ARCHITECTS' JOURNAL (UK and Eire only) £28. A reduced rate for professionals for a combined subscription to both publications is available to architects and other members of the building design team and associated disciplines and students at UK and Eire schools of architecture. Please add on card opposite your qualifications, or if none, your job title and name and address of your employer. Combined subscriptions must have a common expiry date and only one postal address.

## WHERE WILL YOU INSTALL The Blunger, the Pug, the Jar Rollers or the Jigger and Jolley?

These are the questions that you will be asking when planning craft pottery departments for schools or leisure centres.

Before getting too involved it's a good idea to get reliable information from the Technical Advisory Service of Harrison Mayer.

They will give you guidance based upon the know-how of many generations of experience in the Potteries.

HM is one of Europe's major producers of pottery materials and supplies all that is needed to equip an efficient craft pottery department.

Before you get committed write to:

Technical Advisory Service,  
Craft & Education Division,  
**Harrison Mayer Limited**,  
Meir, Stoke-on-Trent ST3 7PX  
Telephone: 0782 316111
